

2/17/2023

To: Wholesale Fundraising Partners

From: Arleen Robson, Owner

Robson's Greenhouse  
9015 Haggerty Rd., Belleville, MI 48111  
734-397-2252  
[Robsonsgreenhouse@gmail.com](mailto:Robsonsgreenhouse@gmail.com)

With last year in the rearview mirror, the 2023 Spring Season is rapidly approaching. Flowers are growing, the greenhouses are warm, and we're looking forward to working with you again on your fundraising efforts. We are happy to convey that our team believes the impacts of COVID-19 are behind us, and this spring feels like a more normal year. However, we took initiative to pre-order as much of the seed/cuttings/ inputs as possible, to make certain our variety of plants would be returned to expand product availability.

- 1.) We have expanded production in many areas this year, to guarantee order fulfillment for 2023. Many of the plants your customers love are back in stock and are well on their way to flowering! PLEASE REVIEW YOUR ORDER/PRICING SHEETS, AS THEY HAVE CHANGED. They are included in your packet.
- 2.) April 22<sup>nd</sup>, 2023 is the DEADLINE for ALL ORDERS, for GUARANTEED SHIPMENT on your May date.
- 3.) In some rare instances, specific colors/varieties may not be available, and we'll communicate a plan with you for providing a close substitute for each of those situations. (Ex. Violet Geranium not available, so lavender/red/color of your choice is subbed instead)

Communication will be key this Spring, and by choosing Robson's Greenhouse as your fundraising partner, you can rest assured that our team will do everything possible to make sure your organization is successful! Please feel free to reach out if you have any questions, and we look forward to filing your orders this spring!

All the best,

*Arleen Robson*

---

Enclosed is our 2023 fundraising order form along with our assortment for the growing season. This year impatiens growing techniques have improved. researchers at Michigan State University and around the country have improved seed quality so that it is becoming more resistant to the downy mildew.

While there continues to be no cure as of yet for the Downy Mildew problem, we have seen impatiens successfully grow over the last few years in several places, including window boxes, containers, and flowerbeds at homes and golf courses. Using fresh, clean potting soil in flower beds and containers increases your growing success. That being said, we are providing the product for customers to try at their own risk.

Again, we thank you for your business and your interest in fundraising with Robson's Greenhouse. For any questions please contact us at : (734) 397-2252. we would be glad to answer any questions you may have.

- Lynn & Arleen Robson
